

## **RE: Recognition of Outstanding Contribution to Andres Villareal**

Hi Oraida,

I wanted to take a moment to recognize and commend the exceptional work of **@Andres Marcelo Villareal Reyes**, a member of our team. Recently, he demonstrated remarkable technical expertise and problem-solving skills in addressing a significant issue affecting the front-end **Troweprice** application, which was ultimately visible to the clients.

The solution involved implementing changes in the backend using Java, showcasing Andres's excellent understanding of both front-end and back-end technologies and how they interact. He bridged the gap seamlessly, ensuring the issue was resolved efficiently and effectively.

In addition to his technical skills, Andres displayed outstanding soft skills, including clear communication and proactive collaboration with team members. This approach greatly contributed to the successful resolution of the problem and reflects the qualities of a true team player.

I believe Andres's contribution deserves recognition, as it sets a high standard for both technical and interpersonal excellence within the team. Thank you for considering this acknowledgment.

Best regards,  
**Luis Estrada**
